Khadija BEN ABDELKADER

About

First-year engineering student in Teleinformatics at the higher Institute of Computer Science and Communication Technologies(ISITCOM), holding a degree in software Engineering from the higher Institute of Computer Science and Mathematics of Monastir. Passionate about computer science and continuous learning, autonomous and highly motivated, I aim to apply my skills and take on new challenges.

Address: Monastir, Tunisie **Phone**: +216 23588722 **E-mail**: khadijabenabdelkader1206@gmail.com

Skills and Knowledge

Programming Languages: C, Java, Javascript, PHP, SQL, Python.

Technologies & Tools: HTML, CSS, Bootstrap, React.js, Angular, Tailwind, Node.js, Express.js, Git, GitHub.

Development Environment: Visual Studio Code, Eclipse, Android Studio.

Concepts: Méthodologie de modélisation (UML), Apprentissage Automatique, Intelligence Artificielle, Cloud, Sécurité informatique, …

Projects Completed

Final Year Project: Design and Development of a Web-Based Training Management Application :
February 2025 - May 2025

- Implemented a complete training management system including sessions, trainers, participants, and evaluations.
- Developed a responsive web interface using React.js and a secure back-end using Node.js/Express with a MySQL database.
- Integrated advanced features such as authentication, dashboard, user management, and an interactive calendar.

SATP Website – Société Abid de Travaux Publics : September 2024 - December 2024

- Developed a website to showcase and monitor construction projects, improving the company's visibility in the civil engineering sector.
- Used Angular, Node.js, MongoDB, and Tailwind CSS to create a modern and functional platform.

E-commerce Website for Resin Products with Intelligent Chatbot : June 2024 - August 2024

- Designed and developed an e-commerce web application including authentication and order management using the MERN stack, with the integration of an intelligent chatbot to enhance user experience.

Education

Higher Institute of Computer Science and Communication Technologies_ ISITCOM: 2025 - 2028
National Engineering Degree in Teleinformatics

Higher Institute of Computer Science and Mathematics of Monastir_ ISIMM: 2022 - 2025
Bachelor's Degree in Computer Science: Software Engineering
